

In order for Georgia ETV students to receive a stipend, they first must qualify (See Qualifications Below) and then must have that request for a stipend submitted by on the ETV site by their Independent Living Specialist.

In order to qualify for a stipend, students must...

- Be an ETV eligible student
- Be taking a full-time schedule (often 12 semester hours)
- Be in compliance with the ETV grade policy
- Report their current living and enrollment status to the ILS
- Communicate with their ILS to confirm eligibility

To view current stipend status...

Login to the student portal, navigate to the ETV Funding link on the black navigation bar and click. Then use the drop down menu for stipends

Other important notes about stipends:

Stipends are reloaded onto your Brightwell Prepaid Card on the 1st day of each month. A request for a stipend must be submitted by your ILS by the 15th of the prior month. For example, ETV must receive the request for an April stipend by March 15th in order for it to be reloaded on April 1st. If the request for a stipend is received after the 15th, it will not be reloaded on the 1st of the next month, but the month after that. For example, if the request is received March 16th, the card will be reloaded on May 1st.
